

# RECALL SAFETY NOTICE

**4moms has announced a voluntary safety recall of certain models of its MamaRoo and RockaRoo infant swings and rockers.**

**When the swing or rocker is not in use, their restraint straps can dangle below the seat, posing a strangulation hazard to non-occupant crawling infants.**

**Consumers can request a free strap fastener that will prevent the straps from extending under the swing or rocker. Visit <https://www.4momsrecall.expertinquiry.com> or call 877-870-7390.**

**Consumers with infants who can crawl should place the swing or rocker in an area where crawling infants cannot access, until remedied.**

**The models below are subject to the recall. The newly launched MamaRoo model with a 5-point harness (Model #1046) is not included in the recall.**

MamaRoo Model 4M-005

MamaRoo Model 1026

MamaRoo Model 1037

RockaRoo Model 4M-012

**This recall is being conducted voluntarily by 4moms in cooperation with the U.S. Consumer Product Safety Commission.**

Post until [120 days after recall announcement, which occurred on 8/15/22]
